

# BIOWC ASIA

## PORTABLE COMPOSTING TOILET

In many countries, mostly in Asia and Africa, people are using a toilet seat; with the user has no body contact.

### The ASIA type of toilet

**TECHN. SPECIFICATIONS: Height 2,4m Width 1m Length 1,5m Weight 350Kg GALVANIZED STEEL PANELS TANK 500 Lit. RUBBER FLOOR**

We developed a special type of this toilet seat; witch has a square opening 15 cm X 20 cm, in order not to get dirty.

In the picture you can see the Asia Type of the toilet seat, and also the cleaning swab on the metal surface.

**BIOWC is equipped with toilet paper hanger**

**BIOWC is equipped with a hanger for clothes**

**The door of BIOWC has a lock, witch indicates occupied to the outside. In emergency situations it can be unlocked from outside.**

**On the roof of BIOWC there is a hook, from where the toilet can be lifted.**

**BIOWC is sited on legs, from where the toilet can be transported by forklift and can be bold down to the earth.**
